WORK ACCOMPLISHED / AMENDMENTS (problem areas, general comments, summary) (Input for day's 1900-5Pon5):																																																																																																																																																											
<p>Rain overnight. 11254.31 gallons of water were pumped to the sanitary sewer. Environmental Evolutions picked up 4,800 gallons of water from FT1102 for disposal at EcoServ.</p> <p>Crew size was reduced due to the rain. The crew moved water to the sanitary sewer and from the Middle Pond to the South Pond. Crew cleaned up the working bay. Crew rinsed FT1002. This tank is ready for TIBM or reuse.</p> <p>RM coordinated site activities with the Foreman and transport of waters to Ecoserve. He completed the daily paperwork, approved-corrected invoices and purchase orders. He discussed site progress and daily plans with the onsite and offsite OSC. He approved invoices and helped T&D Coordinator with disposal options and procurements. He answered bidder questions for the analytical RFP.</p> <p>T&D Coordinator continue work on disposal of material contained in the AST's in the North and South Containment and the WWT area. Profile completed for Republic, and worked with RM and OSC on scheduling, profiling and procurement of waste.</p> <p>H/S completed daily safety paperwork, conducted the site meeting and air monitoring. He completed preparing of the operation guideling and safety review for the North and South Containment area and tanks.</p>
